

NAME OF TEACHER: FEMI-ADESORO B.F.

SUBJECT: CHEMISTRY CLASS: SS3

WEEK 4: PAST QUESTIONS 1996-2004. OBJECTIVES ONLY

NOTE: Dear students, I expect us to maximize this extended period of preparation for our exams to tighten our loose ends and work on moving up our expected grades in the forth-coming exams.

In lieu of this, I expect you to solve a minimum of two years of objective questions daily in chemistry and cover all the chemistry objective past questions in 3 weeks.

When we have covered this, we will start the theory questions afresh.

Do not forget to always take a look at your qualitative analysis daily.

Shalom.
